

Bilge KÖŞE

FRONTEND DEVELOPER

Eğriçam District, 22103 Street, Yenişehir, Mersin, 33160, TURKEY

+90 (507) 084 18 22 | bilge.koosee@gmail.com | bilge-koosee.netlify.app | bilgekoosee | bilgekoosee

Summary

Frontend Developer with a strong foundation in React.js, TypeScript, Angular (basic), and modern front end technologies. Experienced in designing, developing, and maintaining responsive, scalable, and user friendly interfaces using HTML5, CSS3/Sass, and JavaScript ES6+. Skilled in integrating RESTful APIs, applying Agile/Scrum methodologies, and optimizing code performance for high traffic applications. Proficient with Git, GitHub, and CI/CD practices. Known for analytical problem-solving skills, adaptability to new technologies, and a passion for continuous learning. Seeking to contribute to innovative projects in a dynamic, collaborative, and forward thinking environment.

Work Experience

Yapı Kredi Technology

Istanbul, Turkey

SOFTWARE INTERN

Nov. 2023 - Oct. 2024

- Developed and maintained user interfaces using React.js and TypeScript for various projects.
- Collaborated with backend teams to integrate RESTful APIs and ensure smooth data flow.
- Enhanced UI/UX by optimizing component rendering, improving performance, and implementing responsive design best practices.
- Participated in Agile/Scrum ceremonies, contributing to sprint planning, daily stand-ups, and retrospectives.
- Took part in code reviews, applied best practices, and contributed to scalable, maintainable front-end architecture.

Toyota

Mersin, Turkey

INTERN

Jun. 2020 - Aug. 2020

- Completed a 30-day internship focused on automotive systems and engineering principles.
- Worked on the design and maintenance of vehicle components, using software like SolidWorks, AutoCAD, Siemens NX, and Catia.
- Gained in-depth knowledge of automotive parts, their functions, and their integration into complex systems.
- Collaborated with engineers on troubleshooting mechanical issues and improving part designs.

Program Committees

2021 Organizer, IEEE Konya

Turkey

Community Member, YGA (Young Guru Academy)

Istanbul, Turkey

Education

Necmettin Erbakan University

Konya, Turkey

MECHATRONICS ENGINEERING

Sep. 2018 - Jul. 2022

- Graduated with a focus on control systems, automation, and robotics.
- Worked on multiple projects, including a balance robot for the final year project.

Skills

Front-End	React.js, Angular (Basic), Vue.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass/SCSS, Responsive and Cross-Browser design
Back-end	Node.js, RESTful APIs, Express.js, Basic DB (MongoDB, MySQL)
Practices	Agile/Scrum, Git, GitHub, CI/CD, Unit Testing (Jest), Code Review
Tools	Figma, MATLAB, ROS, SolidWorks, AutoCAD, Siemens NX, Catia
Languages	Turkish (Native), English (Upper-Intermediate B2)

Extracurricular Activity

Ctrl+ Future Bootcamp (in collaboration with Koç Holding and Microsoft)

Turkey

PARTICIPANT

Jul. 2023 - Sep. 2023

- Completed a comprehensive bootcamp focused on front-end development using React.js, TypeScript, and JavaScript ES6+.
- Built server-side applications with Node.js and Express.js, integrating RESTful APIs for data handling.
- Delivered full-stack projects combining modern front-end (React.js, Sass) and back-end (Node.js, MongoDB) technologies.
- Applied Agile/Scrum practices, collaborated via Git/GitHub, and completed hands-on coding challenges in a team environment.

University Graduation Project

Necmettin Erbakan University,

Konya, Turkey

BALANCE ROBOT PROJECT

Sep. 2020 - Jun. 2022

- Designed and implemented a self-balancing robot using STM32F103 microcontroller and CubeIDE for control logic.
- Developed and tested mathematical models in MATLAB and ROS for performance optimization.
- Completed hardware integration and embedded software development, achieving a fully functional balance control system.

Various Personal and Academic Projects

Online / University

OTHER PROJECTS

- Developed a personal portfolio website using React.js, TypeScript, HTML5, CSS3, and Sass, optimized for performance and mobile-friendly.
- Created and maintained open-source contributions, including bug fixes and feature enhancements, through GitHub pull requests.
- For more details on projects, visit GitHub: github.com/bilgekosee.
